Stars Count	2
Forks Count	1
Issues Count	0

Metric	Values
README Presence	✓
License Presence	✗
Documentation Presence	✗
Examples Presence	✗
Requirements Presence	✓
Tests Presence	✗
Description Presence	✓

Repository Structure:

• Compliance: The repository structure is relatively simple and functional for a small project. It includes core application files, tests, and a requirements file.
• Missing files: LICENSE
• Organization: The project appears reasonably organized with a clear separation of application code (budget_manager.py, database.py, main.py) and tests (test_app.py, test_new_module.py). The README and requirements files are also present at the root level.

README Analysis:

• Quality: The README is very short and contains only the project name.
• Project description: Partial
• Installation: No
• Usage examples: No
• Contribution guidelines: No
• License specified: No
• Badges present: No

Documentation:

• Tests present: Yes
• Documentation quality: No dedicated documentation is present beyond the README.
• Outdated content: No

Key Shortcomings:

- Lack of a license file.
- Insufficient README content - missing project description, installation instructions, and usage examples.
- Absence of comprehensive documentation.

Recommendations:

- Add a LICENSE file to clearly define the project's licensing terms.
- Expand the README file to include a detailed project description, installation instructions, and basic usage examples.
- Consider adding more comprehensive documentation, even if it's just basic comments within the code, to improve maintainability and understanding.
